Action Plan (take two)

I plan to execute my challenge in the next two weeks. In order to keep a handle on how I'm doing and manage my time I made a timeline with everything laid out:

One-gauge:
Master smooth shaping and get the hang of my new tools. Follow a few step by step tutorials. Choose a design to copy.

Frame and weave:
Learn how to attach beads securely and stop weaves from slipping. Work through tutorials; try different frame shapes. Choose a design that has both beads and weaves.

Wire wrapped:
Find out how to get smooth wraps and how to hold pieces in place while you wrap them. Follow tutorials, include ones showing the design process.

Chainmail:
Master a couple of different 'weaves' and know how they work in a design. Find and follow tutorials; try '3D' ones.

Chainmail:
Design my own piece (probably a snake). Bare in mind things like weave and 3D aspects. Create my piece. Evaluate.

Woven Jewellery:
Follow a few, more advanced tutorials. Choose a piece to copy. Work out how it's constructed. Make it myself.

Tue 1st	Wed 2nd	Thu 3rd	Fri 4th	Sat 5th	Sun 6th	Mon 7th	Tue 8th	Wed 9th	Thu 10th	Fri 11th	Sat 12th
---------	---------	---------	---------	---------	---------	---------	---------	---------	----------	----------	----------

One-gauge:
Work out how the piece was made. Make my own. Create my own animal design. Complete the piece. Evaluate.

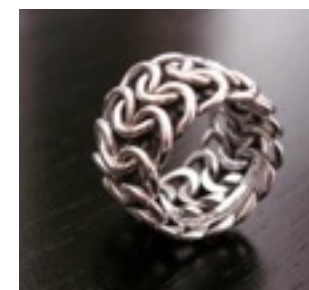

Frame and weave:
Figure out and make my copy of the picture. Design my piece of jewellery. Make the piece and evaluate the result.

Wire wrapped:
Pick a design to copy. Figure out how it was done, how many pieces there are etc. Design my own piece and make it. Evaluate my progress

Chainmail:
Find a chainmail animal to copy (it may be quite hard to work out how it was made). Make it myself.

Woven Jewellery:
Master the basic wraps and weaves and learn how to put together the jewellery. Follow a few starter tutorials.

Create a jewellery design for this type. Complete the piece. Evaluate the standards of my work overall.
